The printing of the first issue of the constitutional amendments in extras, specials etc., was about the biggest cod perpetrated upon the people of Nebraska, this year of grace. For the most part it was a mere farce. About the best way the people of the state can settle the account with Colonel Galusha is to give him a long rest from office-holding. His conduct in this matter as well as in other affairs entitles him to retire upon his laurels.

### Souvenir Postal Cards.

### NEW INVENTION IN GLASSES.

Necessity has been the mother of many inventions, and the Kryptok bifocal is not the least worthy, although one of the most inconspicuous of her children.

Franklin's two part lens showed what a bifocal could be. The INVISIBLE lens is what a bifocal should be. SCIENCE has developed THEORY.

It has made a sanitary bifocal possible. It has done away with the clumsy appearance and objectionable features of the old-style bifocals. Now it is possible to look right and see right.

To those now using two pairs of glasses, we would say a word: It is time to change the old-time method to the new. The new method is to wear Kryptoks. They are the best, most up-to-date bifocal lenses in existence, and do not possess the disagreeable features of the old style. If you wish to know more about this wonderful invention, write to the Columbian Bifocal Co., Temple Court, Denver, Colo., exclusive manufacturers in the west, who will be pleased to give you full information.

### KRYPTOKS—NOW IS THE TIME.

Do you know there is a wonderful power in the little word "now," if we make it our motto through life? It is really the secret of success in anything we undertake.

Little defects in the eyes increase daily, and delay is frequently serious. You have only one pair of eyes; if they are defective, glasses will usually restore the sight to its normal condition, but if you wait too long, even the greatest skill may be powerless to help you. If you are in doubt as to the kind of glasses to secure, let us fit you with a pair of "Toriscus-Kryptoks." Toriscus glasses are so constructed that they give the eye a larger scope of vision than is possible in ordinary lenses, and, fitting more closely to the face, protect the eyes from dust particles and reflections from light. Kryptoks are made in Toriscus shape, combining the qualities of the two, making it the most perfect lens in existence. To know more about the Kryptoks write to the Columbian Bifocal Co., Temple Court, Denver, Colo., the sole makers and distributors of these lenses in the West. A booklet giving full information will be sent free of charge.

## NORRIS NOMINATED.

FIFTH DISTRICT GIVES UNANIMOUS ENDORSEMENT.

### PARTY HAS MET DEMANDS.

HEAR WORDS OF PRAISE FOR ADMINISTRATION.

In Speech to Convention Mr. Norris Tells About Railroad Rate Bill and His Part in Framing It.

HASTINGS, Aug. 8.—Congressman G. W. Norris was renominated by acclamation for a third term by the republicans of the Fifth district assembled in convention in the court house in this city this afternoon. There was a full representation from the entire eighteen counties, Adams, Clay, Chase, Dundy, Franklin, Furnas, Frontier, Gosper, Hall, Harlin, Hayes, Hitchcock, Kearney, Nuckolls, Perkins, Phelps, Red Willow and Webster.

Flags and bunting formed decorations in the hall in the center of which was displayed a large portrait of President Roosevelt.

Chairman Allen of the district committee called the convention to order at 3 o'clock and read the call. Editor Merwin of the Beaver City Times-Tribune, formerly Congressman Norris' private secretary, was made chairman and C. A. Luce of Republican City, secretary. City Attorney Button of Hastings in the nomination speech said he had heard that "by their fruits shall ye know them." He said he had been watching the action of Congressman Norris and had seen him voting and working with the people. He moved that the rules be suspended and G. W. Norris be declared the nominee of the convention by acclamation.

Congressman Norris made a brief address. He referred to what the people want in legislation being voiced by President Roosevelt. He referred to what had been done by the first session of the Fifty-ninth congress and said practically every demand of the people had been enacted into law by that congress. He spoke briefly of the rate law, the Panama canal, pure food bill, meat inspection and free alcohol legislation and gave a brief history of the anti-pass provision of the rate bill, which Mr. Norris himself assisted in framing. In conclusion he said the republican party met all requirements of the people and left the democrats without an issue.

The resolutions adopted endorse President Roosevelt and his administration and refer with confidence to the judgment of republicans of the district and record made by Congressman Norris. —Nebraska State Journal.

### Mistakes Made at the Mint.

John Erhard of Philadelphia has a coin dated 1891, which has a head on either side, showing that mistakes are made even at the mint. Every finished coin passes through the hands of a great many experts, and there is little chance of an imperfect piece escaping this scrutiny. There are said to be many of them in circulation, however. No particular value is attached to the coins outside of their rarity as curiosities.

### Home for Families of Bandits.

Not actuated by remorse, but by pure philanthropy, Jim Jenkins, hunter of outlaws, has concluded to devote all his money to the maintenance of a home for the orphans and widows of men he has run to earth, in particular, and of criminals of the great Southwest in general. Jim Jenkins, now of Kansas, is now 65 years old and has spent forty years as a scout and hunter of bandits and train robbers. In this way he has made about \$50,000. Among the distinguished outlaws he has chased were Jesse James and his brother, Bob Ford, Bill Dalton and Bill Cook, while he was the leader of the band that caught Cherokee Bill in 1895. In the Dalton raid in Coffeyville, Kas., Jenkins was shot eight times. He estimates his bag of bad men at about 150. The home, which is being built on a 5,000-acre farm owned by Jenkins, near Pryor Creek, I. T., is to cost \$20,000.—Buffalo Express.
